

I think the Public affairs work just fine the way it is. We have tons of opportunities to serve public interest at K95.5. We do live break in's for severe weather. Report crime stoppers of the week. Hugo elementary kids have their news report on monday thru Friday. The radio shopper a public and free call in show on every Saturday from 8 AM to 10 AM. We report Amber Alerts. We have also reported things like power outages, mandatory water boils, and broke programming for things like 9-1-1 and the Oklahoma bombing. News is on 4 times a day: 6AM, 7AM, 8AM & 5 PM. We cover different sporting events; the game in entirety and scores as they come in. Nascar updates. We also have two seperate stock market reports with Dain Lair and Dave Patty. We have local artists played weekly on our home grown program. We are also involved in commuity fundraisers example: Big Brothers & Big Sisters, and little Bradley Greer who needed to go to a special Dr. We also annouce different public events, Church revivals, singings, fundraisers, and blood drives. I personally donate my time working at a free medical clinic once a month. K95.5 announces the community calendar twice a day. morning and afternoon. I think we are in the public and announcing events for the public constantly.
